

i.on my centre your Governance, Compliance,
Risk Management and Accreditation Solution.

CHERUBS CHILD CARE CENTRE

Client Testimonial

“Before ‘i.on my centre’ was installed hazards reporting of fire drills logged, lock down drills, head lice & flu breakouts along with accident reports were time consuming and a problem for us.

We also use the system for staff appraisals, predict trends for things like danger areas of frequent incidents, along with managing the overall risk associated across our centre.

After the system was installed, we had a ‘Validation Visit’ from QIAS. We feel more confident in supporting our evidence of meeting requirements for the Quality Improvement Areas since implementing the system.

We had everything we needed in simple to access reports. This meant we could get back to business of caring for the kids, with minimal disruption from the Validation visit.

‘i.on my centre’ immediately proved its value to us”

Marnie Armansin | Centre Director | Cherubs Child Care Centre

Cherubs Child Care Centre

Located in Raff Street Toowoomba Queensland, Cherubs provides a fun, learning environment for children.

Established in 1995 the family owned business caters for 75 children from the ages of 6 weeks - 6 years.

‘i.on my centre’- A SIMPLE, HASSLE FREE INSTALLATION!

‘The system has had an immediate impact. The compliance burden has been lifted & a customised HR system is in place – it has solved our problems’

Project Success & Measures

Project	Cherubs Child Care Centre
Business problems	<ol style="list-style-type: none"> 1. Maintaining compliance paperwork and managing processes at the high standards required to keep accreditation levels was complex and resource intensive. 2. Managing the risks, hazards, incidents and accidents along with reporting the actions taken was time consuming for the entire team. 3. Staff appraisals and performance reviews were not benchmarked and this was having a negative impact on staff retention and team meetings.
Cause of the problem	<ol style="list-style-type: none"> 1. Evidence reporting for compliance was entirely manual and paper-based. 2. Paper-based systems were used for managing hazards and risks. 3. Performance data was inconsistent and inaccurate.
Implications across the business	<ul style="list-style-type: none"> ❏ The arduous paper-work wasted time and reduced productivity, with staff becoming frustrated and spending less time caring for the children. ❏ Business decisions made without reliable data started to have a negative impact. ❏ Cost of operations was increasing.
Success measures & project outcomes	<ul style="list-style-type: none"> ❏ Accreditation evidence is now automatically collected. ❏ Staff are now actively engaged in the performance review process with positive effects on morale. ❏ Incident/accident/hazard etc reports are completed by staff in less than 5 minutes, saving from 2 - 5 hours of paperwork each week. ❏ Trend data, e.g. for staff and high risk areas, are now available with the click of a mouse allowing faster, better business decisions by management. ❏ The workflow tools alert and remind key staff who are accountable for specific actions by an agreed date.

i.on my centre - an evidence based governance, risk, compliance and accreditation solution for Child Care Centres that simplifies the day to management. The results are measured delivering immediate cost savings and productivity improvements, in addition the business intelligence allows faster, more accurate business decisions.
